

### Block Party

To all of our families of Bruce Drive, we hope you had a fabulous time at your block party.

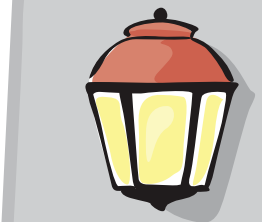

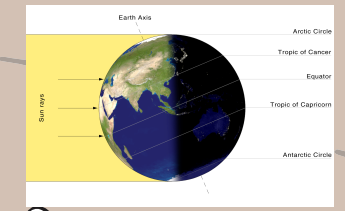

We enjoyed having you and we look forward to having everyone back next year!

### Summer Solstice

The **summer solstice** occurs when the tilt of a planet's semi-axis, in either northern or southern hemispheres, is most inclined toward the star that it orbits. Earth's maximum axial tilt toward the sun is 23° 26'. This happens twice each year (once in each hemisphere), at which times the Sun reaches its highest position in the sky as seen from the north or the south pole.

The summer solstice occurs during a hemisphere's summer. This is the northern solstice in the northern hemisphere and the southern solstice in the southern hemisphere. Depending on the shift of the calendar, the summer solstice occurs some time between June 20 and June 22 in the northern hemisphere and between December 20 and December 23 each year in the southern hemisphere.

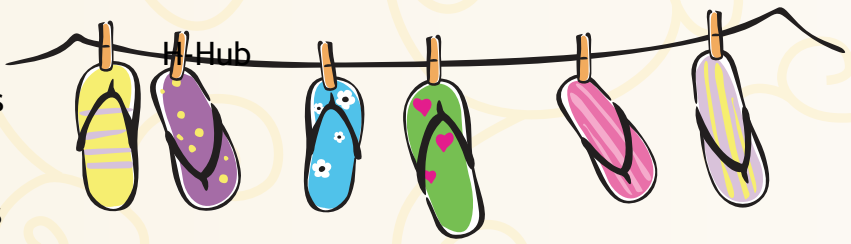

# June

June Birthdays  
 Elnora Tucker, Doug McLaughlin, Sid Medley,  
 Wanda Amburgey, JoAnne Bornman, Dorothy  
 Eckhardt, Ruby Kelly, Sean McDonald.

People born in the month of June are great communicators. They can win over any situation with their immaculate speech. Their interpersonal skills also help them rapidly rise in an organizational setup. There will be few boring moments in the company of these people as their wit is a part of folklore. They can think on their feet and are always ready with a smart remark. Their wit can win them a lot of admirers. Their gaiety is infectious and can cheer up the most somber of souls. They have an enthusiasm for life and they don't let even the most negative of occurrences stop them from enjoying life to the fullest.
