MARCH

## March

### March's Full Moon

The full moon of March is known by a few names.

Some refer it to as the worm moon because, as the temperature begins to warm and the ground begins to thaw, earthworms appear, heralding the return of the robins.

Others call it the full crow moon because the cawing of crows signals the end of winter.

### March Around the World

We've all heard that March "comes in like a lion and goes out like a lamb," but in Scotland, they say it a little differently: "March comes in with adders' heads and goes out with peacocks' tails."
