

## MEETING AN UNRECOGNIZED NEED

We always talk about our team members enriching happiness for our residents and families, but this week Sue's husband Chuck met one for me. I was joking early in the week with him and sharing that I have always wanted to go for a motorcycle ride. Yesterday, he completely surprised me, he told the ladies to let me know my ride had arrived. I was a bit confused, but when I went to see who it was, it was Chuck. I was able to enjoy my first ride with him, one more thing for me to check off my bucket list. Thank you so much Chuck, completely made my day!
