Living a Life Worth Living

Live a life worth Living - We all have it in us. A free-spirited wonderful wacky attitude that makes our lives colorful and exciting. Like a roller coaster with plenty of twists and turns, it can be a whole lot of fun. But sometimes people can mistake that wild energy for chaos and a hint of criticism can creep in. When that happens, our creativity gets stifled, our sparkle gets dulled, and we begin to no longer fully cherish our lives. Well, not anymore! This is the year to rekindle your passions and redefine your world.

Stand up for something worth fighting for by confronting the especially if they scare you. Make a difference in someone's life.. in the process you'll change your own. dragons of the world, You'll also see how an outlook like this is contagious! It spills over onto everyone and everything around you. It floods the world with positive energy and makes "amazing" the new standard. So don't wait for a better opportunity. Now is the time and this is the moment to commit to a life not only worth living but worth truly loving as well! - Wacky Women Calendar
