April Showers Brings May Flowers

According to early Roman Calendar, April was the second month but became fourth when they started to use January as the first month. The name originally came from Aprilis, meaning 'to open'. In April, small animals that were hibernating usually come out and the birds fly back northward to settle, bees, and butterflies begin to gather nectar. In some parts of the world, April is planting time but in other parts, it's harvest season. Because of the nice warm weather of April, amateur

athletes begin to practice outside. The professional baseball season begins. People usually do huge spring cleaning and mowing. The first day of April begins with April Fool's Day. April is Global Child Nutrition Month, Humor Month, and Mathematics Awareness Month. The Revolutionary War in America began on April 19, 1755. On April 6, 1917 the United States declared war on Germany in World War I. April 5th is Arbor Day and the 22nd is Earth Day. What a wonderful month!
