

## Celebrate July

July was named in honor of Julius Ceasar

- July's flower is the water lily or larkspur
- July's birthstone is the ruby.
- We celebrate America's Independence Day on July 4

Resident birthdays: Shirley Stearns (7/4), Joseph "Joey" Hapner (7/20), Sharon Singleton (7/20), Gerald "Hoppy" Hopkins (7/29)

BFM Birthdays: Herb Hughes (7/2), John Willcox (7/4)

### Always Something Fun Happening Happenings Just for Fun

7/2 10a Resident Council

We are so very happy that some of the restrictions have started to be lifted.

Justin: Why does the Statue of Liberty stand in New York Harbor?

Teacher: Tommy, can you tell us where the Declaration of Independence was signed?

7/4 Independence Day

One of the best things is that we can now eat meals together.

Gerald: Why?  
Justin: Because she can't sit down.

Tommy: Yes, ma'am. At the bottom.

7/7 3pa Food Council

7/15 Italian Day

Why did Paul Revere ride his horse from Boston to Lexington?

Because the horse was too heavy to carry.

Did you hear the one about the Liberty Bell?

It cracked me up!

Alvin: My greatgrandfather fought with Napoleon, my grandfather fought with the French and my father fought with the Americans. Alex: Your relatives couldn't get along with anyone, could they?

Wondering what the current rules are about visiting? We do our best to get word to our residents' families, but don't hesitate to call during regular business hours (8:30a—5:00p).

### Sparkling July

July wouldn't be complete without a beautiful fireworks display! Here are some fun facts that you may not have known about the fireworks we love so much!

\*In 1830, Italy gave fireworks color. Bright colors are created when burning different metallic powders within fireworks tubes.

Fireworks were invented in China sometime between 200 BC and 900 AD. Since then, fireworks have been used to mark important celebrations. China is the largest fireworks manufacturer and exporter in the world.

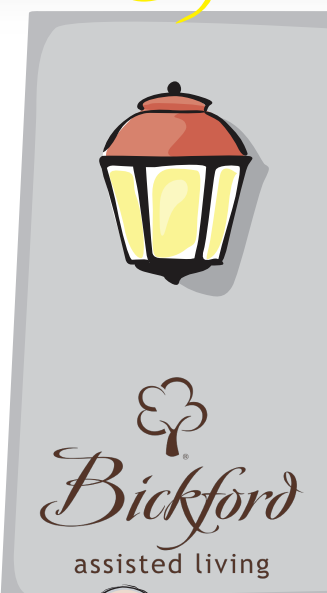

Firework sounds can also be determined by different chemical combinations within the tubes.

Fireworks used to contain just three ingredients: saltpetre, sulphur, and charcoal.

Americans love their fireworks. We purchased 163.6 million pounds of fireworks last year alone. And fireworks displays used another 23.1 million pounds.

Marco Polo, an Italian merchant and traveler, is believed to have brought fireworks from China to Europe around the year 1295.

But it's not all fun. An average of 800 people per year wind up in the emergency room due to fireworks injuries. Have a happy and safe July!
