

TIPS FOR BUILDING A SCARECROW

What you will need:

- * 1 sturdy stick or bamboo cane, about 2m long.
- * 1 sturdy stick or bamboo cane, about 1m long.
- * 1 sturdy stick or bamboo cane, about 30cm long.
- * Old clothes - shirt , overalls , hat, trousers.
- * String.
- * Old pair of tights
- * Straw or leaves.

How to assemble:

To make the frame tie together tightly 1m stick to the 2m stick in a cross shape, then tie the other stick the same way about half way down. This will be the frame of your scarecrow.

Make the head - Cut one leg from tights and fill with straw. Push the straw firmly to the end and make into a head shape. Tie a piece of string around the tights (so straw will not fall out). Paint a funny face on it, or make some glasses, beard, hair with straw / string. Tie the head onto the top of the frame.

Dress your scarecrow - Placing a shirt / dress on the top crossbar and the trousers / skirt on the smaller bar. This would be the standard scarecrow design, but you may use your creativity to dress your scarecrow however you like.

Tie off the bottom of the legs of the trousers with string and stuff them with straw/ leaves or any other material. Bottom up the shirt and tie the ends of the arms then stuff the sleeves.

HAVE FUN! & GOOD LUCK!
