May Flower

The flower for the month of May is the lily of the valley. It is prized for its sweet fragrance- once considered so precious that water laced with its essential oils was stored in gold and silver containers. It's a common folk belief that the scent of this inedible flower in the spring air is the signal for nightingales to begin their seasonal singing and choosing of a mate. Legend has it that King Charles IX of France was given this flower on May 1, 1561, He reportedly then gave the gift of lillies of the valley to all the ladies of his court each year on May 1.
